

DECLARAȚIE PRIVIND ANGAJAMENTUL COMPANIEI

Ocolul Silvic Ingka Investments SRL are obligatia in conformitate cu Regulamentul European privind Materialul Lemnos (EUTR) de a se asigura ca toate produsele din material lemnos pe care le paseaza pe piata sa aiba risc neglijabil de a proveni din surse unde exista o incalcare evidenta a legislatiei forestiere. Pentru a verifica acest lucru in mod independent, am contactat Soil Association Woodmark, ca Organizatie de Monitorizare inregistrata la UE, pentru a le utilizeaza Sistemul Due Diligence (DDS) aprobat si evaluat in mod regulat. Toate produsele vandute de catre Ocolul Silvic Ingka Investments SRL vor avea o certificare credibila sau alte documentatii care sa demonstreze conformitatea cu EUTR. Ocolul Silvic Ingka Investments SRL va analiza si evalua fiecare achizitie obtinand informatia de la furnizor, inclusiv specia si districtul de origine si orice certificare aplicabila sau documentatie de legalitate inainte de a face disponibile [produsele din material lemnos] pe piata europeana.

Acolo unde informatie furnizata este insuficienta pentru stabilirea unui risc neglijabil de ilegalitate, vor fi facute mai multe investigatii pentru a reduce riscul. Acestea vor acoperi:

- asigurarea conformitatii cu legislatia aplicabila, care poate include certificarea sau schemele de verificare ale unei terți parti care acopera conformitatea cu legislatia aplicabila;
- prevalenta exploatarilor ilegale a unor anumite specii de arbori;
- prevalenta exploatarilor sau practicilor ilegale in tara de exploatare si/sau in regiunea sub-nationala din care s-a exploatat materialul lemnos, incluzand considerarea prevalentei conflictului armat,
- sanctiuni impuse de Consiliul de Securitate ONU sau de Consiliul Uniunii Europene privind importurile sau exporturile de material lemnos;
- complexitatea lantului de aprovizionare de material lemnos si produse din material lemnos

Cand nu se poate obtine o asigurare suficienta de reducere a riscului, furnizorul va fi respins din lantul de aprovizionare.

Ocolul Silvic Ingka Investments SRL se angajeaza in continuare sa urmareasca utilizarea surselor sustenabile pentru toate produsele forestiere, recunoscand ca legalitatea nu este suficienta in ea insasi pentru a asigura cel mai bun viitor pentru toate padurile. Noi sustinem schemele de certificare de terță parte, credibile, cu implicarea a numerosi factori interesati, care elaboreaza standarde ce acopera o paleta larga de criterii sociale, de mediu si economice. De aceea, ne vom stradui sa crestem proportia produselor certificate in mod credibil si sa implicam furnizorii in vederea sustinerii acestui proces.

Ocolul Silvic Ingka Investments SRL pastreaza toate inregistrarile de material lemnos cumparat si vandut pentru minim 5 ani. Informatiile privind speciile si districtul de origine vor fi transmise tuturor clientilor pentru ca ei sa poata la randul lor sa se conformeze obligatiilor EUTR de a mentine trasabilitatea.

In ciuda celor mai bune eforturi ale noastre, recunoastem ca nici un sistem nu poate oferi garantia legalitatii suta la suta si intelegem ca cerinta EUTR este o interzicere absoluta a comertului cu material lemnos ilegal. Ocolul Silvic Ingka Investments SRL are o procedura documentata privind plangerile, si toate plangerile privind DDS vor fi investigate si se vor mentine inregistrari ale actiunilor intreprinse.

STATEMENT OF COMPANY COMMITMENT

Ocolul Silvic Ingka Investments SRL has an obligation under the European Union Timber Regulation (EUTR) to ensure that all the timber products we place on the market have negligible risk of originating from sources where there is evidence of contravention of forest legislation. In order to have independent verification of this we have engaged with Soil Association Woodmark, as a Monitoring Organisation registered with the EU, to use their approved and regularly evaluated Due Diligence System (DDS). All products sold by Ocolul Silvic Ingka Investments SRL will have credible certification or other documentation to demonstrate compliance with the EUTR. Ocolul Silvic Ingka Investments SRL will analyse and evaluate each supply by obtaining information from the supplier including the species and district of origin and any applicable certification or legality documentation before making [timber products] available on the European market.

Where the information supplied is insufficient to establish a negligible risk of illegality, further investigation will be undertaken in order to mitigate the risk. This will cover:

- assurance of compliance with applicable legislation, which may include certification or other third-party-verified schemes which cover compliance with applicable legislation,
- prevalence of illegal harvesting of specific tree species,
- prevalence of illegal harvesting or practices in the country of harvest and/or sub-national region where the timber was harvested, including consideration of the prevalence of armed conflict,
- sanctions imposed by the UN Security Council or the Council of the European Union on timber imports or exports,
- complexity of the supply chain of timber and timber products.

When assurance sufficient to mitigate the risk cannot be gained, the supplier will be rejected from our supply chain.

Ocolul Silvic Ingka Investments SRL is further committed to working towards sustainable sourcing for all forest products, recognising that legality is not in itself sufficient to ensure the best possible future for all forests. We support credible, third party, multi-stakeholder certification schemes which set standards covering a full range of social, environmental and economic criteria. We will therefore endeavour to increase our proportion of credible certified products and engage with our suppliers to move towards enabling this.

Ocolul Silvic Ingka Investments SRL maintains all records of timber purchases and sales for a minimum of five years. Information on species and district of origin will be passed on to all our trade customers so that they in turn can meet their EUTR obligation to maintain traceability.

Notwithstanding our best efforts, we recognise that no system can offer a hundred per cent guarantee of legality and the requirement of the EUTR is an absolute prohibition on trade in illegal timber. Ocolul Silvic Ingka Investments SRL has a documented complaints procedure and all complaints regarding our DDS will be investigated and records of subsequent actions will be kept.
